

Pony Express Health Information Management Association presents
a seminar on the interdependence of coding and performance measurement processes

It's All About Quality Data!

Public reporting, pay-for-performance, Deficit Reduction Act of 2005...
all of these intensify the need for high-quality coding practices.
Do you know all you need to know about these initiatives in order to do your job as a coder,
quality management professional, HIM manager or other healthcare professional?

Featured Speakers

AHA's **Nelly Leon-Chisen**,
RHIA, will explain the
connection between coding
and quality reporting

PI expert **Sharon Sirridge**,
RN, will share her real-life
experience with us on dealing
with issues between quality
reporting and coding

Robert Epps and **Dr. Arnold
Balanoff** from CMS will
discuss performance
measures and the impact on
our organizations

We will end the day with a lively
discussion and a quiz game

Agenda

8:00 a.m. Registration
8:30 a.m. *Seminar*
11:00 a.m. Break
11:15 a.m. *Seminar*
